

DANCAN ONGONG'O

Full-Stack Developer & ICT Trainer Nairobi, Kenya |

dancanfullstackdev@gmail.com | +254 705 756 500 [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL PROFILE

Tech-savvy Full-Stack Developer and ICT Trainer with hands-on experience building responsive, secure applications and integrating robust APIs. Highly skilled in bridging technical and non-technical stakeholders through clear technical communication, product documentation, and end-user training. Security-aware with a solid foundation in networking, Linux systems, and data protection best practices. Recognized for technical excellence as a regional award-winner in the Huawei ICT Competition, and highly adaptable across software engineering, cloud architecture, and technical support environments.

KEY SKILLS

- **Frontend Development:** React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS.
- **Backend & APIs:** Node.js, Express, REST API design & testing, GraphQL, Postman, NextAuth, JWT, OAuth.
- **Databases & Cloud:** MongoDB, SQL basics, MySQL, PostgreSQL, Firebase, Supabase.
- **Cloud & AI Certifications:** AWS, Azure, Google Cloud awareness; Huawei HCIA-Cloud Service V3.5, HCIA-AI V4.0, HCIA-Datacom V1.0.
- **IT, Networking & Security:** Linux, TCP/IP, CCNA (Routing, Security, CyberOps, DevNet), Secure Coding, OWASP top 10, API Security.
- **Tools & DevOps:** Git, GitHub Actions, Docker (Basics), Postman, Figma, Python, PHP, C++.
- **Soft Skills:** Cross-functional collaboration, technical writing, product support, proactive problem-solving.

PROFESSIONAL EXPERIENCE

ICT Trainer

Great Nairobi East College (GNEC) | Nairobi, Kenya | 2025 - Present

- Deliver comprehensive ICT training covering networking, cloud computing, software applications, and digital literacy to TVET-aligned cohorts.
- Develop and maintain clear training materials, user guides, and product documentation to ensure technical concepts are highly accessible to non-technical learners.
- Provide first-line technical support, troubleshoot hardware/software issues, and escalate complex incidents efficiently.
- Gather structured learner feedback and document curriculum performance to drive iterative improvements in course content.

Freelance Full-Stack Developer

Self-Employed | Remote | 2022

- Designed, developed, and integrated secure REST APIs across multiple client applications using Node.js, Express, and MongoDB.
- Extensively utilized Postman for rigorous API testing, debugging, and comprehensive endpoint documentation.
- Built secure backend systems handling JSON Web Tokens (JWT) authentication, data management, and third-party service integrations.
- Produced clear API documentation, user manuals, and data reports tailored to both technical and non-technical client audiences.
- Managed the end-to-end project lifecycle, conducted QA testing, tracked software bugs, and provided post-deployment user training.

ICT Intern

Water Services Regulatory Board (WASREB) | Nairobi, Kenya | 2024

- Delivered first-line IT support, hardware/software troubleshooting, and network maintenance for organization staff.
- Contributed to a critical server OS upgrade and data recovery project, significantly improving system stability, reliability, and security compliance.
- Revamped an internal React-based website, successfully optimizing its UI/UX aesthetics, mobile responsiveness, and security posture.
- Prepared thorough system configuration documentation and step-by-step process guides to maintain organizational knowledge retention.

NOTABLE PROJECTS

University Library System

- Developed a full-stack library management system featuring secure user authentication, role-based access control, detailed audit logs, and a structured REST API.
- *Tech Stack:* React, Node.js, Express, MongoDB.

E-Repair Shop System

- Built an all-in-one operational platform managing client repairs, automated invoicing, inventory tracking, and integrated backend data handling.
- *Tech Stack:* Node.js, React, Express, MySQL/MongoDB.

E-commerce Application

- Formed a modern e-commerce platform featuring secure Stripe payment gateway integration, an advanced admin dashboard, product management, and real-time order tracking.
- *Tech Stack:* Next.js, Node.js, Stripe API, MongoDB.

(Live project demos available at: danray472.github.io/portfolio)

EDUCATION

- **BSc in Cybersecurity & Forensics (Ongoing)** | Open University of Kenya
- **Diploma in Software Engineering** | Zetech University

CERTIFICATIONS & AWARDS

- **3rd Prize Laureate:** Huawei ICT Competition Southern Africa Regional Final — Cloud Track (2025-2026)
- **Huawei Certified ICT Associate (HCIA):** Cloud Service V3.5, AI V4.0, and Datacom V1.0
- **Cisco Certified Network Associate (CCNA):** Enterprise Networking, Security, Automation, CyberOps, and DevNet pathways
- **Technical Certifications:** JavaScript, Python, and Responsive Web Design — *freeCodeCamp*
